

Suspension of the Renewal Requirement for the Senior Exemption and Disability Exemption

On December 26, 2021 the Governor passed an executive order in response to the COVID-19 pandemic that permits the local municipalities to suspend the requirement for renewal applications to be filed for the 2022 assessment roll. In the interest of keeping our residents safe, The Town of Union has taken action and passed a resolution that waives the renewal requirement for both of the eligible exemptions for 2022:

- **Partial Tax Exemption for Real Property of Senior Citizens (467)**
- **Partial Tax Exemption for Real Property of Persons with Disabilities and Limited Income (459-c)**

This action will ensure that you will receive the same exempt status that you had on the 2021 assessment roll without filing a renewal application.

If the Assessor's Office receives any information that would lead to a change in your exemption status for either of these programs you will be notified.
