

Town of Union
Water & Sewer Rate Adjustments

Town of Union Sewer Users in Choconut Center, Fairmont Park, Westover and other areas in the Part Town area billed by the Village of Endicott Water Department

Since the last rate adjustment in December 2015, increases received from the Binghamton-Johnson City Joint Sewage Treatment Plant (BJCJSTP) have made the Sewer Fund budget more difficult to balance. There have been media reports on the upgrade costs incurred by the BJCJSTP affecting sewer rates, <https://www.pressconnects.com/story/news/local/2019/11/18/inghamton-johnson-city-sewage-plant-nears-completion/4235169002/>. The Town Board must prepare a balanced budget, which requires rate adjustments for the BJCJSTP increases. **The Town of Union does not generate these sewer increases. The sewer increases are passed on from the BJCJSTP.** The following rate adjustments will be applicable on the next quarter billing:

Minimum Charge	\$75.79
Rate per cf 1001-4999	\$0.091980
Rate per cf 5000-9999	\$0.114975
Rate per cf 10000 & up	\$0.124173

Town of Union Water Users in the Choconut Center Water District

Increases received for water from the Village of Johnson City have made the Water Fund more difficult to balance. The Town Board must prepare a balanced budget, which requires rate adjustments for the water increases from the Village of Johnson City. **The Town of Union does not generate these water increases. The water increases are passed on from the Village of Johnson City.** The following rate adjustments will be applicable on the next quarter billing:

Minimum Charge	\$112.50
Rate per cf 1001-7000	\$0.0665625
Rate per cf 7001-2000000	\$0.8531250
Rate per cf 2000001 & up	\$0.0235813
