

COVID-19 Response- Town of Union Planning Department

Given the circumstances surrounding COVID-19, the Town of Union is prioritizing efforts to reduce or mitigate risk of infection and the town offices are closed to the public until further notice. Our office may have disruptions in regular services but we will do everything we can to minimize those interruptions. For the safety of our office staff, residents, and program participants, the Town of Union Community Development Office is implementing the following policies:

1. The office is not currently accepting walk-ins. If you have questions regarding planning or site plan review, please contact the appropriate person by telephone or email. A listing of our staff can be found below. Please contact the appropriate person to discuss your concerns so that it can be determined whether an in-person appointment is absolutely necessary or if the issue can be resolved remotely.
