West Endicott Fire District

Town Board
Town of Union
3111 E Main Street
Endwell, NY 13760

Town Board Members,

Currently the rock that was around the shim for the manhole cover has come apart and needs to be rebuilt because it is disintegrating into the ground.

The sewer drainpipe is about 4 feet into our property. The original drawings were done circa 1969-1970, and no easement was found.

The sewer consists of a large vault and a line that picks up the neighbor's sewer and meets the main sewer at Maple Street.

The West Endicott Fire District is requesting the Town of Union to repair the manhole that is on top of the vault, and to inform us as to the procedure for the Town of Union to have a permanent easement to our property.

Any questions contact Commissioner Dave Johnson at 607-372-9141.

RECEIVED
APR 29 2022
TOWN OF UNION CLERK

The concrete that is on our apron is 8 inches of bridge grade concrete.

Thank You

Nancy Dyer
Secretary
West Endicott Fire District.
